

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in this application.

Listing of Claims:

1. (currently amended): A composition comprising
hops isoalpha acids selected from unreduced isoalpha acids, dihydro-isoalpha acids and tetrahydro-isoalpha acids, and mixtures thereof and
one or more isoflavones selected from genistein, genistin, daidzein, daidzin, glycitein and glycitin,
wherein the weight ratio of hops isoalpha ~~acids acid extract~~ to isoflavones is from 20:1 to 1:20 ~~1:50 to 50:1~~, calculated as aglucon.
2. (cancelled).
3. (original): A composition according to claim 1, wherein the weight ratio of hops isoalpha acids to said isoflavones is in the range from 1:2 to 2:1, calculated as aglucon.
4. (previously presented): A composition according to claim 1 which comprises genistein/genistin and daidzein/daidzin present in a weight ratio of from 2:1 to 1:2.
5. (previously presented): A composition according to claim 1, wherein the isoflavones are derived from soy.
6. (cancelled).
7. (previously presented): A dosage form comprising a composition according to claim 1, wherein the dosage form comprises from 10 mg to 200 mg of said hops isoalpha acids and from 10 mg to 200 mg of said isoflavones.
8. (previously presented): A food product which comprises a composition according to claim 1.

9. (original): A food product according to claim 8, wherein the amount of said hops isoalpha acids and said isoflavones present in the food product is from 20% to 100% of the total recommended daily intake (= RDI amount) of the hops isoalpha acids and isoflavones per serving.

10. (previously presented): A food product according to claim 7, wherein the food product is selected from the group consisting of spreads, margarines, creams, sauces, dressings, mayonnaises, ice creams, fillings, confectioneries, health bars, cereals and health drinks.

11. (currently amended): A food product comprising a composition according to claim 1 ~~claim 6~~ wherein the food product contains 20 mg to 400 mg of a combination of said hops isoalpha acids and said isoflavones, per recommended serving.

12.-17. (cancelled).
